EMERGENCY RULE:

**230-X-1-.34.01ER Authority for Issuing Temporary License(s) Pending Required
Examination(s) for Otherwise Qualified Applicants During a COVID-19 Declared State of
Emergency**

Where an applicant's good faith ability to take required examinations is adversely impacted by the ongoing closure of approved testing facilities in the county, city, parish and/or province where the applicants principal place of business and/or where the applicants qualifier(s) is currently located due to a Covid-19 government declared state of emergency, the Alabama Licensing Board for General Contractors has the authority to temporarily modify its examination requirements set forth at Administrative Code Section 230-X-1-.34, but only for either (1) those adversely affected applicants who otherwise fully and completely comply with all other Alabama Board licensing requirements or (2) for those adversely affected out of state applicants in good standing, who lack reciprocity, but otherwise fully and completely comply with all Alabama Board licensing requirements and who have successfully passed required exams mandated by their state contractors board for the same or equivalent license classification(s) they are seeking in Alabama. Under these limited conditions a valid and enforceable temporary

contractors' license will be issued subject to the required examination being successfully completed on or before the expiration date identified on the contractors' temporary license.

Moreover, where an applicant's demonstrated good faith efforts to take required examinations continues to be impeded by the above-referenced ongoing closure of approved testing facilities due to a Covid-19 government declared state of emergency, the Chairman of the Board may on a case by case basis authorize the Board's Executive Director to extend the contractor's temporary active license for up to an additional 90 days subject to the Board Chairman's final approval.

This rule does not eliminate the Board's required examination prerequisite for licensure and does not expand or modify the license in issue. The adoption of this rule is deemed necessary for the public's health, safety or welfare.
